~~It is observed that~~
~~Govt. have made~~

From careful enquiries ~~have been made~~ ~~being~~ made, it has been ascertained that on the spot, the people are all in favour of the toll being introduced. It is understood that such tolls are levied at Byadgi Besides, the carts use municipal roads and the rates ~~as stated~~ proposed are not heavy. Under these circumstances Govt. are pleased to sanction the Board's proposal ~~for~~ as a tentative measure for one year, at the end of which a report should be submitted by the President for

Sr L for note:-

In Govt. Pro. No. 6974-5
L.R. 102-96
of 16 Dec 1896 Govt. Sanctioned
the levy of Octroi on certain
articles in the Dawangere
Municipality. But on the re-
presentation made by the Dan
the Proceedings was cancelled
with the observation that the
levy of tolls on Carts could
not be authorised as recom-
mended.

(2) The President thereupon
Submitted for the reconsidera-
tion of Govt. a proposition by
the Mun. Board to levy
tolls on carts coming into the
towns and Stated that owing
to the outbreak of Plague
in the towns, a large sum
of Rs 10,000 had to be
advanced

advanced Govt. for open
ing out new roads and
widening old ones, that
to repay this advance and to
carry out other improvements,
which are absolutely neces-
sary, the present income of
the Municipality was not Suf
ficient and that the levy
of Octroi was utterly un-
Suited to the town. He add
-ed that the levy of tolls
having been Sanctioned for
the Bangalore City Munici
pality, the Govt. would now
be prepared to reconsider
a Similar question for Banas
gere and Sanction the intro
duction of tolls into the town.
But he was informed in reply
that the levy of tolls in Ban
galore which is authorised

by an express provision the Regulation in force that Municipality, did not indicate any change circumstances in Davao since July 1898 when the levy of tolls thereon was disapproved and that ~~they~~ the Government were not there- fore prepared to reconsider that order pending the early passing of a Moros Municipal Regulation.

+ Letter No. 671 of 13 2.01 (Srl 56)

(3) The President invited reference to the correspondence ending with the above and requested a reconsideration of the above order in view of the representations made by the merchants on the occasion of the 1st Councillors visit to that place and requested sanction to

the levy of tolls. Thereupon
he was asked to state fully by the grounds for substituting tolls on carts for octroi in the town.

(4) The President in reply states that Davangere is a very important trade centre and is rising rapidly, that a sum of Rs 20,000 was advanced in 1894 for enlarging the town, out of which Rs 10,000 was treated as a grant-in-aid and the remaining Rs 10,000 was considered a loan and this together with interest thereon is being repaid in annual instalments, that during the outbreak of Plague in September to December 1899, and the sum of

Rs 10,000 was advanced for opening new roads and Sanitary Lanes and for widening those already in existence. that the present revenue of the town leaves after payments of interest and instalments of principal debt due, a very small margin for carrying out public works in the town that as the town is one in which a large amount of commercial business is transacted & that as almost all the articles upon which Octroi is generally levied are stored for sometime before export to other

centres of trade, the levy
of Octroi upon them, be
comes in spite of precautions
taken as a sort of transit
duty and hampers trade.
The President adds that
the Municipal Board have
therefore been repeatedly
asking for sanction to levy
tolls on carts coming into
the town and that this
proposal was negatived

subject being Govt. (Pub. Dept.)

(6) The tolls proposed can not be considered light by any means.

Bycosi levying tolls is no consideration for Davanagere during likewise, the system of tolls is very common in British India where as it is ~~rare~~ exceptional here.

It has also to be considered that the more influential members of the Community the traders have to pay the octroi duties in the first instance & the ~~total~~ Comparatively humbler classes the tolls and thus have to be considered in the valuation of the produce

Why not? except that the traders are now here with the exception of more money, fresh effects must be remitted & when produce also other imports a town I do not see that there need be any steps that were not done it upon—

This maybe a mis conception. The humbler classes are I suppose the carriers — they will also collect the tolls from men whose goods they carry
